About the National Webinar & Concept Note:

Covid 19 Pandemic disrupted the life across the world. Many strong economies have collapses due to long stretched lockdown period. Therefore, this year 2020 will suffer a great losses in every sectors, this happened only after world war II. Besides economic equations; the pandemic affected socio-political conditions in each countries. So also it affected international relations amongst the countries. The Europe and America are affected highly of this pandemic and suffer greater number of casualties. This is the real testing time to each country to bring about cooperation and sustainable development in diplomatic relations. World require understanding amongst countries for health services, technology, and liberal democracy similarly as it was accepted as Atlantic charter after world war.

Presently the biggest question stand before the government is of the migrant labourers who were stranded for more than two months in different cities, some walked thousands of miles hungry and thirsty, some unfortunate lost their lives of starvation and trauma of loosing wages. Most of the labourers have now reached their places but now question is how to get them employment to sustain. As a matter of fact, these migrants are mostly from backwards communities like SC, ST and OBCs. Therefore, this is the time for government and academicians to contemplate. We need to mediate through the constitutional safeguards specially included by Dr. Babasaheb Ambedkar. Various projects and employment schemes need to be implemented. Experts and scholars need come together to interrogate the situation and bring about handsome solutions in the interest of these labourers and backward communities. In the light of these issues , Dept. of History and Political science of our college have decided to invite experts and scholars in this national webinar to discuss the situation allowed in the limitations of our discipline.
