

The background of the slide features a silhouette of two hikers with backpacks standing on a hill, looking towards a bright sunset. The sky transitions from a deep blue at the top to a warm orange and yellow near the horizon. The hikers are positioned on the left side of the frame, with the sun directly behind them, creating a strong backlight effect.

Preparing for examination

You are preparing to enter a door of
opportunities....

Give a message to your own heart and mind!

With mindful breathing in and breathing out

Talk to your self in the morning ...noon...and ...evening...

You are attempting all papers **SHOULD BE THE ONLY INTENTION**

Whatever might be the circumstances...

Prepare your mind to pass this examination!

Don't postpone your goal for silly thinking...

Let your mind get the habit of success!

About Reading and Study

- ❑ Sufficient reading and deep understanding is the key to confidence for exam
- ❑ Give enough time and space for each subject

My method to understand a topic:

- Read
- Understand
- Stop and think for a while
- Walk if you like
- Interrogate yourself
- If Convinced
- Have a cup of tea ! And go to the next one...

Discussions Make the Difference!

- ❑ Discussions with teachers and friends can enhance understanding level in the subject
- ❑ Whatever you read—discuss with somebody—may be a friend
- ❑ OR go to walk and tell yourself.... Your own thoughts
- ❑ It helps you keep your understanding for a long period
- ❑ It also enlightens your friend and he will be indebted to you for enhancing his understanding as well.
- ❑ A chance is there he too brightens up your mind with X-factor understanding.

Orient yourself with the questions in the exam

- ❑ See the previous question papers
- ❑ Go through the notes dictated by the teachers
- ❑ Make a list of probable questions from each unit
- ❑ Solve them and verify your answers from the teachers
- ❑ Make sure you have managed the time required to a question.
- ❑ Solve a model question paper and check your time.

Make a Habit

Daily 5 to 6 hours of study

And

2 to 3 hours of writing

Increase the time span if you aspire to become something significant through study!

Work with the sun

Sleep with the night...

Eat less and Stay healthy for examination

Drink plenty of water...it sustains brain energy!

Plan your study schedule...

Complete small-small targets...

If anxious...

Have a cup of tea...go back to book!

Next day

Make sure you are meeting your subject teacher...

Open up your mind....

and you will get hope for sure!

बुजी शमा भी जल सकती है ..
तूफानों से कश्ती भी निकल सकती है ...

हो के मायूस यूँ ना अपने इरादे बदल
तेरी किस्मत कभी भी बदल सकती है ...

Walking into the examination hall...

- ❑ Get the admission card well in advance
- ❑ If anything wrong, consult the college office clerk or go to the University if necessary....
- ❑ Know your examination centre one day before (Road map)
OR hire a vehicle for five days!
- ❑ Reach the centre at least one hour before the commencement of examination any how!

What to carry

- ❖ Admission card (keep a Xerox copy in home always)
- ❖ A set of blue or black ball pen (use them before hand)
- ❖ Avoid ink or gel pen
- ❖ A pencil / eraser / sharpener
- ❖ A bottle of water of your own
- ❖ A wrist watch for sure (Don't rely on warning bell)

What not to carry!

- ❖ Keep your mobile home
- ❖ No precious items in the bag
- ❖ No suspicious papers in the pocket
- ❖ Check your wallet if it has anything suspicious
- ❖ Anything which may distract your mind

Say no to cheating or any malpractice in the examination hall

You will loose your career if not today , tomorrow for sure!

Mindfully breathing in and breathing out

Feel you are confident

You are stress free

Say to yourself that the paper is easy and you will perform to the best of your ability

Don't ever think to quit!...attempt the examination!

Get an answer paper with awareness!

Check the entire page if they are torn off / spoiled etc.
Check the page numbers...whether printed clearly
If anything wrong with the answer book get it changed

If satisfied with the answer book
fill the details as given in the instructions:

On day one... use the pencil first and show it to the invigilator if you have any doubts...

(Lets see the video)

Get a question paper gently

Mindfully and calmly read the question paper

Make your selections of your choice of questions

Start with answer that you know the best...next best...and next so-so...and end with the best

Mention question Number each time
when you begin the answer:

On top or in the margin

Question no. 1.(a)

Question no. 2 (d)

Question 3 (a) i.....ii.....iii

Each question should have separate
mention

- ❑ Do not spoil the answer sheet by crossing the words or sentences or crossing the entire page.
- ❑ Begin the long answer from the new page
- ❑ Small answer type questions you can write in a sequence. No need to begin such small one on new page every time.
- ❑ Put a line when you finish the answer and begin the next answer below it.
- Keep an appropriate word count per line (8 /10 words)
- Make paragraphs to show systematic presentation
- Keep your handwriting neat and well throughout the answer book

Do not provide wrong / false information! – it creates a bad impression

Don't consider the examiner as fools- do not write songs of cinema or story instead of the answer required...

OR Roman script for Hindi/Marathi language (its easily detected)
