ABOUT US

Dr. Madhukarrao Wasnik P.W.S. Arts, Commerce & Science College began its educational movement from 1968 with a very small strength of students in one of the backward areas of the North Nagpur. The institution was founded by the young Medical practitioner, philanthropist and politician Dr. Madhukarraoji Wasnik (Ex. MLA) inspired by the values of the Dr. Babasaheb Ambedkar. The institution has turned into a well-established institution with nearly four thousand students with big educational campus on Kamptee Road. There are Two UG and ten PG programmes in Arts and Commerce streams. The institution has a well-equipped library with Internet Facilities. College has many facilities for the higher learners with different value added courses to enrich their skills required in the job market. Research is a very meaningful activity in the institution. We have Ph. D. Research programme in Nine Subjects viz. English, Marathi, Hindi, Pali-Prakrit, Economics, Commerce, History, Political Science and Ambedkar Thought. With a purpose to promote research in Pali and Dr. Ambedkar Thought; University Grants Commission under XIIth plan granted Buddhist Studies Centre and Dr. Ambedkar Studies Centre.

About the Workshop

The scholars start research in Social science, Languages or in Commerce often find research methodology a rather amorphous subject in the beginning. There is an extensive literature available but the variety of strategies, approaches; methods, terminologies and techniques, and the absence of a standard nomenclature present a daunting task for a first researcher. In this workshop, the aim is firstly to provide a brief overview of the principal terminology likely to be encountered in research literature. We shall try to stress on those aspects which are the most important in carrying out research projects smoothly. The second aim is to present a simple model of research methodology that this model will provide not only a useful structure for the remainder of the workshop but also a readily grasped perspectives of research methodology. The third aim is to emphasize the importance of the methodology of handling research data, a topic often given little attention in workshops on research methods.

OBJECTIVES OF THE WORKSHOP

1. To orient the Research Scholars about significance of Social Science Research
2. To familiarize them with philosophical and theoretical dimensions of social science in general and research in particular.
3. To Orient the scholars with different types of data sources and ways and means of accessing them.
4. To deliberate on the aspects of searching research theme, formulating research questions and objectives, setting research design and other components of research proposal.
5. To orient them with various research methods and techniques of data collection and data-analysis and interpretation.
6. To orient them with popular stylesheets (MLA/APA, etc) used in research writing
7. To deliberate on bestowing final shape of research output in the form of research report/thesis/monograph.
